

Flowers River Outfitters

Liquor ordering checklist

Any angler who wishes to add personal beverages to their week at Flowers River will be dealing directly with the liquor commission for both ordering and payment.

For ease of transition, we are providing the following detailed instructions for your convenience.

In order to make sure that your order is in camp when requested, please ensure that you follow the directions and timeline listed below. If you forget to order, please be advised that there is no liquor on site for purchase or liquor store at Flowers River.

- Order needs to be submitted to liquor store **at least** 3 weeks before your arrival at camp
- Go to Goose Bay liquor store website <http://www.nliquor.com/stores/liquor-store?code=25> and check whether your items are available at the Goose Bay location.
- Write in correct SKU#, description and quantity. Be as specific as possible and give back-up options, should your first choice not be available at the time your order is filled.
- Once completed (including your full name and fishing dates), email your order form (with "ORDER" in subject line), with credit card information to Brent Michelin at brent.michelin@nliquor.com **OR Fax** to Brent's attention to fax# 709-896-4269 .
- To ensure that Flowers staff knows to be expecting your order and to be ready for its pick up in Goose Bay, please also send a copy of your order form to fishinglabrador@gmail.com
- It is the angler's responsibility to follow up to ensure that the order request has been received for processing by Brent.

SKU	Quantity	Description	Comments – if any
