Good Fishing Reported at Labrador Lodge

[Send to a friend](#) [Print Page](#)

[Back to News](#)

Guests from around the world are said to be enjoying some good fishing at a lodge in Labrador. The Flowers River Fishing Lodge is entertaining guests this summer from as far away as Germany, the United Kingdom, the United States, and all parts of Canada. Flowers River is owned and operated by Jim Burton, well known in the real estate industry in the St. John's area, and he says salmon fishing the past few weeks has been unbelievable. He pointed out one guest released a 20 pound and a 25 pound Atlantic salmon in a 24 hour period. Burton says a young fishing enthusiast from St. John's released a 12 pounder and a 20 pounder, also in a 24 hour period. He says snow is still melting from the

mountains around Flowers River fishing lodge, which makes it very successful for their 100 per cent catch and release program.
